

HEALTH AND SAFETY TO AND FROM SCHOOL

On the way to and from school

- never speak to strangers
- keep an eye out for the younger students' safety.
- concentrate on what's happening around you.

A sensible idea is to map out with your Team a safe route to follow to and from school.

- avoid busy roads and intersections
- know some people in houses you pass if you need them
- walk or ride directly to and from school; no detours.
- if riding, wear your helmet properly.
- always cross roads at school crossings where possible.

When travelling to and from school, if a serious accident occurs get help immediately. If 000 is dialled you will be put in contact with:

- Ambulance Service
- Police Force
- Metropolitan/Country Fire Brigade

When the operator asks, give the follow details:

- Name – Your name
- Location – The address where you are
- Number of injured – How many people need help
- What's wrong – what seems to be wrong
- What's happening – what help is being given to the injured already
- Other information – the operator may ask you more.

DO NOT HANG UP THE PHONE UNTIL THEY DO.

Draw a map of your route to and from school.

“Success is the sum of small efforts repeated daily.” Robert Collier.
